Note: The list of datasets or programs will differ between different webDHIS instances. This form is specific to this database. A different registration form must be accessed and completed for each database to which you require access.

In the event of a NIDS review this form will be revised but existing users access will be mapped from a current dataset to a new dataset with similar elements to prevent re-registration requests during NIDS reviews. Such mapping would not require re-submission of the form.

***The list of data sets or user roles is dependent on the database that you are requesting access to
